Preface

Scientific writing is a multidisciplinary subject which is essential for researchers to communicate their inventions/discoveries effectively. Doing justice to scientific communication in a book with 100+ pages is rather difficult. Hence, in this book, the authors attempted to give an overview of different aspects of scientific writing and criteria for selection of journals. The authors presume that this book can help you to excel in your writing and take you a step ahead in your research career.

Authors

Contents

Introduction	1
Scientific writing	8
Reference managers	34
Tools for chemical structures	40
Selection of suitable journal	49
Identifying fake journals vs SCI journals	53
Identifying UGC CARE journals	62
Identifying NAAS rated journals	69
Writing of cover letter	72
Addressing reviewer comments	76
Common ethical issues in scientific writing	90
Plagiarism	105
About Research	119
Tools for authors	131
